### **Technical Data Sheet**

## Pro-fax 6523

Polypropylene, Homopolymer

#### **Product Description**

*Pro-fax* 6523 general purpose polypropylene homopolymer resin is available in pellet form.

ASTM and ISO-based versions of the technical datasheet are available for Pro-fax 6523.

#### **Regulatory Status**

For regulatory compliance information, see *Pro-fax* 6523 <u>Product Stewardship Bulletin (PSB) and Safety Data</u> <u>Sheet (SDS)</u>.

| Status            | Commercial: Active   |
|-------------------|--|
| Availability      | North America  |
| Application       | Automotive Parts; Raffia/Tapes/Strapping; Thermoformed Food Containers |
| Market            | Automotive; Consumer Products; Rigid Packaging                         |
| Processing Method | Cast Film; Injection Molding; Thermoforming                            |
| Attribute         | Good Heat Aging Resistance   |

| Typical Properties                    | Nominal<br>Value | English<br>Units  | Nominal<br>Value | SI<br>Units | Test Method |
|---------------------------------------|------------------|-------------------|------------------|-------------|-------------|
| Physical                              |                  |                   |                  |             |             |
| Melt Flow Rate, (230 °C/2.16 kg)      | 4.0              | g/10 min          | 4.0              | g/10 min    | ASTM D1238  |
| Density, (23 °C)                      | 0.90             | g/cm <sup>3</sup> | 0.90             | g/cm³       | ASTM D792   |
| Mechanical                            |                  |                   |                  |             |             |
| Flexural Modulus                      |                  |                   |                  |             |             |
| (0.05 in/min, 1% Secant, Procedure A) | 200000           | psi               |                  |             | ASTM D790   |
| (1.3 mm/min, 1% Secant, Procedure A)  |                  |                   | 1380             | MPa         | ASTM D790   |
| Tensile Strength at Yield             |                  |                   |                  |             |             |
| (2 in/min)                            | 4800             | psi               |                  |             | ASTM D638   |
| (50 mm/min)                           |                  |                   | 33               | MPa         | ASTM D638   |
| Tensile Elongation at Yield           | 12               | %                 | 12               | %           | ASTM D638   |
| Impact                                |                  |                   |                  |             |             |
| Notched Izod Impact Strength          |                  |                   |                  |             |             |
| (73 °F, Method A)                     | 1.0              | ft-lb/in          |                  |             | ASTM D256   |
| (23 °C, Method A)                     |                  |                   | 53               | J/m         | ASTM D256   |
| Thermal                               |                  |                   |                  |             |             |
| Deflection Temperature Under Load     |                  |                   |                  |             |             |
| (66 psi, Unannealed)                  | 190              | °F                |                  |             | ASTM D648   |
| (0.45 MPa, Unannealed)                |                  |                   | 88               | °C          | ASTM D648   |

# lyondellbasell

#### Notes

These are typical property values not to be construed as specification limits.

#### Automotive Specifications

- FCA MS-DB500 CPN 1537
- Ford ESA-M4D134-A
- Ford ESF-M4D135-A
- GM GMP.PP.013
- GM GMW15702-150088-PP

#### Processing Techniques

Specific recommendations for resin type and processing conditions can only be made when the end use, required properties and fabrication equipment are known.
